OUR INNOVATION, YOUR TRUST

## ABOUT US

Asta Chemicals is the leading Malaysian chemical manufacturer of formaldehyde, adhesive resins, specialty chemicals, hardeners, and fillers. Catering to a wide spectrum of industries, we are capable of providing high quality products and innovative solutions to meet the needs of our customers locally and internationally. Headquartered in Kuala Lumpur with manufacturing facilities in the north and east peninsulas of Malaysia, our facilities not only allow us to be innovative in our technology, but also enable us to Toll manufacture for multinationals.

Since opening its doors in 1974, Asta Chemicals has always continued to innovate and improve on our products and processes. We constantly look for ways to reduce our impact on the environment, provide products of added value and assist our customers with technical support and solutions that are developed to suit their needs.

VALUES are the  
CORE of all  
internal & external  
RELATIONSHIPS

Besides complying with all applicable DOH & DOE laws and regulations, we work to educate and communicate the importance of EHS with each other, our vendors, and customers.

Our employees are well trained in EHS and support the company's commitment to reduce our impact on the environment and achieve...
